

CLIENT PHOTOGRAPHY GUIDE

Smile Makeover.

DO I HAVE TO TAKE PHOTOS?

It's normal to feel anxious about taking and submitting personal photos. However, they are an essential part of your Smile Makeover journey and are used in a number of ways:

- As a planning tool for your Dentist
- To inform your Smile Makeover Quote
- As a baseline to measure your results

Like other personal client information collected during your journey, your photos will remain confidential.

INSTRUCTIONS

- Have someone take the photos, if possible
- Ensure photos are clear and in focus
- Take photos as close as possible
- Take the photos in good lighting
- Try to reduce shadows
- Take each photo in the positions shown
- Bite together in your natural bite - ie on the back teeth

DO NOT bite down on the front teeth
